WORLD'S FASTEST DRUMMER GAME FEATURING SPEEDE!

Nashville, TN USA Oct 7th McAfee Enterprises, Inc. creators of WFD-World's Fastest Drummer events announced today it has entered into a partnership with leading game and technology developers Riseup Labs of Bangladesh. McAfee and Riseup Labs are bringing World's Fastest Drummer gaming to the masses, starting with WFD Mobile Game featuring WFD action hero SpeedE. This mobile version is scheduled for release to both iOS and android stores on Nov. 30th 2022.

WFD is a highly charged interactive brand, internationally recognized, with a loyal, loving fan base. WFD is now in its 22nd year of touring the globe in search of the World's Fastest Drummer. "WFD is a serious extreme sport with its top athletes setting such WFD World Records as Battle of the Hands record of 1208 single strokes in 60 seconds. This means their hands are moving over 20 times per second for a full minute. At this point in our brand evolution it is just a natural progression to develop WFD as a gaming property. We could not be any more excited than to partner with such a talented development team as Riseup Labs" says WFD founder Boo McAfee.

Although WFD is a sport where extreme performance drummers get into a wrestling ring and throw down to see who's the fastest, WFD games are for anyone who knows their right from their left! The game features mild manner band geek Stanley and his alter ego SpeedE. Whenever Stanley is put into a tense situation such as bullying, he transforms into action hero SpeedE, whose favorite line is "I'M GONNA BEAT YOU LIKE A CHEAP SET OF DRUMS!"

"The WFD mobile game is not for drummers only, we built this game for the entire family and all ages to have FUN seeing who is the fastest in their family, at school, anywhere there's a mobile device" –added McAfee.

McAfee Enterprises Inc. CEO- Boo McAfee as the creator of WFD and SpeedE, Riseup Labs CEO Ershadul Hoque and Team leader Sheikh Robin Emon attended the signing ceremony.

"The formation of a partnership with McAfee Enterprises Inc. thrills Riseup Labs. They are pioneers in the field of technology. But it's only the start. We want to make a lasting impression in the gaming world by building a partnership." - said Ershadul Hoque, CEO of Riseup Labs.

McAfee Enterprises Inc., under the guidance of Boo McAfee have built an internationally recognized entertainment company which includes the speed detecting technology Drumometer, World's Fastest Drummer and action hero SpeedE. Located in the Nashville TN area of the USA, McAfee continues to do live WFD sporting events, WFD gaming along with Drumometer retail sales.

Riseup Labs is an ISO-certified leading technology solution and service provider company in Bangladesh, focusing mostly on the Web, Mobile, XR, and Simulator technologies. We design and develop intelligent, innovative, sustainable web systems, mobile apps, games, and interactive entertainment experiences on multiple platforms.
